ARTICLE 4

EMPLOYEE RIGHTS

1. Nothing contained in this agreement shall be construed to limit or deny employees any rights to which they are entitled as citizens under the laws or constitution of the United States or the State of Kansas.
2. An employee is accountable for the performance of official duties and for compliance with standards of conduct for state employees. Employees shall have the right to conduct their private lives as they deem fit provided such conduct does not conflict with law or regulation.
3. **REPRESENTATION**. The employer believes in the tenets of progressive discipline. Prior to any disciplinary action being taken against an employee involving suspension, demotion or dismissal, the employer shall furnish a written statement to the employee, setting forth the reasons and factual basis thereof. If the employee chooses to appear in person on the issue of the proposed disciplinary action, the employee may be represented by a person of the employee's choice.
 - A. **Opportunity to Respond**: For proposed actions of suspension, demotion or termination, this statement shall specify the date, time and place by, or at which, the employee may initially reply in writing to or appear before the Installation/Wing Commander, or both. If the employee is dissatisfied with the Installation/Wing Commander's decision, the employee may appeal in writing to the Adjutant General. At the discretion of the Adjutant General, the employee may be provided an opportunity to appear before the Adjutant General, who is the agency's final authority on suspension, demotion, or termination.
 - B. **Counseling Opportunities**: The employee shall be counseled and/or advised in writing of the corrective action or remedy necessary to resolve the cause of the discipline. Corrective actions or remedies may include but are not limited to counseling, training, or remediation in an effort to assist the employee in avoiding further disciplinary action.

- C. **Investigative Interviews:** Employees shall be informed by the employer of their right to representation by IAFF or a person of their choice at any interview conducted by management for the purpose of investigating allegations against the employee being interviewed, provided the employer reasonably believes and so indicates that the investigation may result in a written reprimand, suspension, demotion, or dismissal.

D. Excluded from the Above Provisions:

- 1) An investigative interview that may result in an oral counseling or written counseling memorandum/reprimand does not entitle an employee to representation. Employees who do not agree with an official written counseling memorandum or letter of reprimand shall be given the opportunity to place a written rebuttal to such a disciplinary action in their appropriate file.
- 2) The representation provided in this Article also does not include meetings or discussions between an employee and his or her supervisor for the purpose of instruction, performance feedback or oral counseling.
- 3) This Article does not entitle a member of this unit, who is the subject of an investigation, to be present at an investigative interview with another employee, as a representative or otherwise. If an employee being interviewed as part of an investigation selects another employee, who is being investigated on the same or similar basis, then the employer may request that another employee, independent of the investigation be selected by the employee being interviewed to serve as the representative.

E.

- 1) If the employer advises the employee that the investigation may result in a reprimand, suspension, demotion, or dismissal, and if requested by the employee, the interview shall be immediately recessed to allow the employee an opportunity to secure a representative of his or her choice, provided that such a recess, in the opinion of the employer, will not endanger the results of the investigation. The employer retains the right to immediately place an employee on leave with pay, pending the completion of the investigation.
- 2) If the determination is made by the employer that a delay in the interview will endanger the results of the investigation and the interview proceeds without the employee's representative, the employer shall include the justification for the determination in the final report of the findings of the investigation.

- F. If the representative selected by the employee is not available for participation in the meeting within 24 hours, or beyond the period of time which, in the opinion of management will endanger the results of the investigation, the investigative interview with the employee may proceed without the employee's representative.

G.

- 1) If a steward agrees to serve as a representative of an employee during the investigation, the steward's participation shall be considered as time worked; but only to the extent of hours permitted in accordance with Article 5, Section 8 of this agreement.
 - 2) If an employee, other than a steward, agrees to serve as a representative of an employee during the investigation, that employee representative participation shall not be considered as time worked.
- H. The function of the employee or other representative during the investigative interview will be to observe the overall propriety of the interview process and to briefly consult with employee under investigation prior to the interview. The representative and the employee under investigation may briefly consult prior to responding to a question, but the employee under investigation shall give the response. The representative shall not attempt to cross examine the interviewer or otherwise interfere with the interview process. The employer shall warn the representative once and may then ask the representative to remove himself or herself if further disruption or undue delay occurs. If the employer removes a representative as provided in this subsection, the employer shall include the justification for the determination in the final report of the findings of the investigation.

- D. Length of service for computing vacation and sick leave accrual rates and for layoff or compensation purposes shall not be recalculated using prior versions of this regulation for employees who have no break in service. Length of service for determining vacation and sick leave accrual rates and for layoff or compensation purposes for an individual returning to

state service shall be the amount of length of service on record as of December 17, 1995, or the date the individual left state service, whichever date is later.

Except for the Safety/Training Specialist, employees shall normally be scheduled 96 or 120 (average 112) hours of work during each 14-day work period in accordance with the 48/96 hour schedule. On each occasion when an employee is contacted and offered overtime work, the employee shall advise the supervisor making the contact of the employee's desire to receive either compensatory time off and/or pay for the overtime work being offered. The employer will attempt to honor the employee's preference, however the final decision as to the type of compensation rests with management, but the decision shall be based upon fiscal considerations of accumulation limits. The

- B. The use of compensatory time shall not be used to permanently alter an employee's regular work schedule. - D. It is understood by both parties that the function of this unit does not always permit strict adherence to a specified work/rest schedule. Since unscheduled staff replacement needs may occur from between six (6) days prior to the shift to during the shift, the 24 hours prior to the shift provision in 5-A-5, will not apply.
- C. The system will include an open record of the specific roster or order of contacts for each shift through which the rotation will occur and a record of the "overtime" or shift or partial shift replacement contacts made to include the date, the person contacted and their response, or their failure to answer the phone designated by the employee for this contact. In addition, if an employee declines to work the overtime as provided below, that opportunity to work overtime will represent a turn in the rotation.
- D. A mandatory On-Call list will be developed based upon shift assignment and seniority within a given shift. This list will be projected at least three months in advance and updated quarterly.
1. Employees assigned to On-Call status will be paid one dollar (\$1.00) per hour for On-Call assignments.  4. Employees may trade On-Call assignments with an employee of equal or higher rank as long as management is notified, and the change is made on the official posted schedule at least 24 hours in advance of the start of the On-Call assigned tour of duty.
6. **SHIFT TRADES.** Shifts or positions thereof may be traded when, in the opinion of management, the change does not interfere with the operation of the fire protection program. A request for

approval of a shift trade will be provided to the shift supervisor on duty when the request is initiated in the form and manner established by management. Approval or denial of the request by management will be made in a timely manner.

WAGES AND BENEFITS

1. **SECTION 1. WAGES.** Employees in the unit shall be paid in accordance with applicable Kansas civil service statutes, regulations and rules on a bi-weekly basis every other Friday, except when a payday falls on an officially observed holiday, in which case employees shall be paid on the previous day. The APPENDIX 24 ANG FIRE PROTECTION ACTIVITIES document will determine the pay format for the unit. The Adjutant General agrees to act in good faith and submit a request for all pay format changes per the Appendix. If for any reason the request for pay format changes is denied, then upon written request by the Union, the Adjutant General shall issue the reason for denial to the Union in writing.

All statewide pay increases approved by the Kansas Legislature shall be applied to unit members, unless specifically denied to the unit by legislation.

2. **SECTION 2. NEW HIRES AND PROMOTIONS**

Newly hired firefighters will begin at the rate specified in the APPENDIX 24 ANG FIRE PROTECTION ACTIVITIES document.

Following successful completion of the six-month probationary period and once all of the following certifications are completed - ARFF, EMT, ARFF Driver, Pumper, Tanker, newly hired firefighters will receive a one-step increase.

After two years of service from the original hire date and successful completion of Inspector 1 training, newly hired firefighters will receive a one-step increase.

If a fully qualified firefighter is hired, starting pay for the fully qualified firefighter will be one step above a newly hired unqualified firefighter's hiring rate.

After completion of the six-month probationary period, and one year of service from the original hire date, the fully qualified firefighter will receive a one-step increase.

The Fire Chief may make exceptions and can grant step raises where unforeseen training complications (weather delays, etc.) prevent unit employees from timely obtaining required training.

3. **INCENTIVE PAY.** Where appropriate, Haztech Incentive pay will continue to be paid until the employee initially reaches the pay cap for their position. Incentive pay will not reinitiate thereafter.

4. **HEALTH AND HOSPITALIZATION.** Employees in the appropriate unit shall be eligible to continue to participate in the State of Kansas Group Health Plan as established by the State of Kansas. The employer shall pay that portion of the employee's premium for health insurance coverage as provided by the state legislature.
5. **LIFE INSURANCE.** Employees in the appropriate unit will continue to participate in the group life insurance plan provided under KPERS.
6. **CALL-IN OR CALL-BACK.** Employees who are called-in or called back to work after having left the employer's premises shall be guaranteed payment for a minimum of two hours.
7. **ACTING ASSIGNMENTS.** An employee who temporarily fulfills the requirements and responsibilities of a position in a higher class of compensation for 30 days or more shall be compensated with a ten percent (10%) pay increase during such acting assignment.
8. **PAY UPON DEMOTION.** An employee who is demoted for disciplinary reasons shall be paid at a lower rate that is consistent with state regulations. No demotion may result in a decrease in a rate of pay greater than seventeen (17) percent.

An employee who was promoted and is voluntarily or involuntarily demoted to their former class of employment shall be paid no less than the same rate of pay the employee was receiving one day prior to the promotion date plus any change in cost-of-living adjustments implemented by the employer during the probationary period.

Maximum Accumulation of Hours	216	264	312	360

1. **VACATION LEAVE.** Except as indicated, each permanent and probationary employee shall earn and accumulate vacation leave as provided in this section. Based on the 26 work periods of 14 days per fiscal year the employees will earn vacation leave and be charged as follows:

* "Hours in pay status" does not include over-time hours earned, and holiday compensation earned.

- A. The safety/Training Specialist shall earn and accumulate leave upon the Vacation Leave table for non-exempt employees in K.A.R. 1-9-4.
- B. Accumulated leave is to be used and in increments of a quarter of an hour or more.
- C. It is understood by both parties that should an employee be granted leave without pay, no leave accrual shall be earned until the employee returns to pay status.
- D. **Application for and use of Vacation Leave.** Vacation leave may not be taken until an employee has been employed for one month.
 1. An employee shall request approval to use vacation leave with pay on the form or in the manner provided by the employer. As long as the request is made five (5) calendar days in advance of the requested leave, the request will not be unreasonably denied.
 2. When minimum staffing levels can be maintained, the immediate supervisor shall approve the use of vacation leave on the same day it is requested.
 3. This request must be made in writing and phone in leave requests will not be granted unless they are of an emergency nature.
 4. The immediate supervisor for the purpose of this section will be the on duty Assistant Chief or their duty representative.
 5. The employer shall not be arbitrary or unreasonable in granting vacation leave requests.
- E. **Annual Leave Lottery.** Due to minimum manning level requirements, it is recognized by the employees that it is necessary for all employees to plan for both holidays and the bulk of annual leave requests in December for the following calendar year. Approximately the first week of December, the shift supervisor will conduct a lottery to determine the order employees will choose annual leave.
 1. The lottery will be conducted as follows. The supervisor will place the correct number of number papers in a container and allow each employee to draw one. The employee with the lowest number will be allowed to make their choice to leave dates first. If the employee with the lowest number does not desire the first pick, then the next employee will pick until all employees have had the opportunity to place their name on the leave calendar.

2. In the interest of allowing all employees the opportunity to take advantage of a holiday off, an employee that has taken a designated holiday the previous year will not be able to pick that holiday until all other employees of that shift have been given the chance to choose a holiday.
- F. Each employee, in order, will be allowed to pick either one block of leave consisting of one (1) shift (48 hours) to two (2) weeks or three separate shifts (48 hours). A second pick will take place in the same order. At the conclusion of the second pick, the calendar is open to all.
 - G. After the initial picks in December, any conflict between employees requesting the same period of time for use of vacation leave shall be resolved by applying length of state service if granting all requests would result in minimum staffing levels not being maintained. Once vacation leave has been approved, an employee will not be required to surrender scheduled vacation time to an employee with more length of service.
 - H. Up to 40 hours of any accrued vacation leave that exceeds an employee's maximum accumulation of hours as provided in Section 1 above shall be converted to sick leave. After this conversion, all remaining vacation leave over the maximum accumulation shall be forfeited at the end of the last payroll period paid in the fiscal year.
 - I.
 - 1) Each employee who retires from the service shall be paid for that employee's accumulated vacation leave up to the maximum allowable.
 - 2) Any employee who resigns or is otherwise separated from the service shall be paid for that employee's accumulated vacation leave up to the maximum allowable at the same time the employee is paid for the last day at work. Pay for vacation leave shall be calculated on the employee's hourly rate of pay.
 3. **SICK LEAVE.** Except as indicated, each permanent and probationary employee shall earn sick leave with pay as provided for in this section as follows:

<u>Hours in Pay Status per pay period*</u>	<u>Less than 5 years</u>

9-16	0.5
17-24	1.0
25-32	1.5

65-72	4.1

*"Hours in pay status" does not include overtime hours earned and holiday compensation earned.

- A. The Safety/Training Specialist shall earn and accumulate leave based upon the Sick Leave table for non-exempt employees in K.A.R. 1-9-5.
- B. Earned sick leave shall accrue based upon pay status hours without limit and shall be available for use by the employee on the first day of the payroll period following its accrual.
- C. An employee wishing to use sick leave shall notify the office of the immediate supervisor at least one (1) hour prior to the start of the employee's regularly scheduled work shift unless an emergency occurs that would render one hour's notification impossible. Sick leave may be used in increments of one (1) hour or more.
- D.
 - 1) Sick leave with pay shall be granted for the following reasons: illness or disability including pregnancy, childbirth, miscarriage, abortion and recovery there from of the employee or family member in accordance with K.A.R. 1-9-5 when the illness or disability reasonably requires the presence of the employee; appointments for the employee or a member of the employee's family with a doctor, dentist, or other health practitioner or legal quarantine of the employee or the adoption of a child by an employee or initial placement of a foster child in the home of an employee when the adoption or initial placement reasonably requires the employee to be absent from work.
 - 2) The employee's family shall be defined as any person related to the employee by blood, marriage or adoption, or minors residing in the employee's residence as a result of legal proceedings pursuant to the Kansas Code for Care of Children or the Kansas Juvenile Offenders code.
- E.
 - 1) If a supervisor has reason to believe an employee has used sick leave in an unauthorized manner, he or she shall so advise the employee and provide the employee a reasonable opportunity to justify the use. The use of sick leave may be denied if the employee is unable to provide a doctor's statement or other reasonable evidence to support a sick leave request. If the appointing authority or his or her designee has evidence that an employee cannot perform his or her duties because of illness or disability, a fitness for duty statement must be obtained from the fire department physician before the employee is allowed to return to work.
 - 2) Time off of more than two (2) consecutive shifts (48 hours) for illness may require a fire department physician's statement documenting the time off and releasing the employee to return to work.

- F. Time off due to an injury may require a fire department physician statement documenting the time off and releasing the employee to return to work.
 - G. If a fire department physician's statement does not return the employee to full duty, restrictions must be specific and the estimated period of time the restrictions are in effect. In those cases, a written physician's release returning the employee to full duty must be submitted when all restrictions have been lifted.
 - H. Management will determine if it cannot accommodate temporary light duty and will provide a written explanation of the reasons to the employees. Factors considered include, but are not limited to, type and length of the restrictions, job duties, availability of productive light duty tasks and staffing.
 - I. Management may request that an employee be seen by the employer's physician, at the employer's expense, to determine if he or she is able to return to restricted or full duty.
 - J. If the employee is required to travel to the fire department physician, the employee may either request payment of mileage from home of record or duty station.
4. **Military Leave** Employees that are in a military status have leave available as follows;
- A. Employees with a 53-hour workweek accrue 159 hours (6 shifts +15 hours) of military leave each fiscal year;
 - B. Employees with a 56-hour workweek accrue 168 hours (7 shifts) each fiscal year.
5. **FUNERAL/DEATH LEAVE.** The Assistant Fire Chief may grant leave with pay to an employee upon the death of a close relative in accordance with agency policy. A close relative includes common law marriage as recognized in the State of Kansas. Employees in common law marriages may be required to have Common Law Marriage forms completed prior to authorization of funeral leave for relatives as a result of a common law marriage. The employee's relationship to the deceased and the necessary travel time shall be among the factors considered in determining the amount of leave to be granted. Approval of hours greater than recommended in the agency policy will be determined in consultation with the Director of State Human Resources.
6. **JURY DUTY, OTHER REQUIRED APPEARANCE BEFORE COURT OR OTHER PUBLIC BODY.** An employee shall be granted leave of absence with pay to respond to a summons for jury duty in a state or federal court or to comply with a subpoena as a witness before a lawfully constituted board or agency or court of law. An employee shall notify the Assistant Fire Chief upon receipt of such a summons or subpoena.
- A. An employee shall not be entitled to leave with pay in circumstances where the employee is called as a witness on the employee's own behalf in an action in which the employee is a party in interest.
 - B. An employee who takes leave under this section who receives compensation for a required appearance other than jury duty, shall turn over to the state all compensation except that the

employee shall retain the first \$50.00 of such fee and all reimbursed expenses or per diem for meals, lodging, and travel except when traveling in a state vehicle.

7. **JOB INJURY LEAVE.** An employee who sustains an injury which renders the employee unable to perform regular job duties and which arises out of and in the course of state employment from a shooting, stabbing, or aggravated battery shall be eligible for leave of absence with pay with no reduction in the employee's regular compensation for a maximum duration of six (6) months.
 - A. An employee who qualifies for job injury leave shall not lose accrued sick leave or vacation leave credits. If the employee is awarded worker's compensation the amount received under this leave shall, when added to worker's compensation pay, equal the regular salary of the employee.
 - B. The employer may require the employee to return to limited service if the employee becomes capable to performing at a reduced level in the opinion of a physician selected by the employer or a representative of the state self-insurance fund and paid for by the employer. Limited service shall not continue for more than six (6) months from the date of return. The employee shall perform limited service under this subsection at the regular hourly rate of pay earned at the time of injury. However, any limited duty allowed shall not, in combination with time away from work on job injury leave, exceed the total six (6) months allowed for job injury.
8. **WORKERS COMPENSATION INSURANCE/ON-THE-JOB INJURY.** Each employee is covered by Workers Compensation Insurance while working on the job. Workers Compensation Insurance is prescribed by law and regulation.
 - A. Any employee shall immediately report any injury received on the job no matter how serious to their immediate supervisor. Employer's standard procedure will be initiated to remedy the employee's situation.
9. **LEAVE WITHOUT PAY.** An employee may request and may be granted leave of absence without pay for any good and sufficient reason including childbearing, illness, temporary disabilities, birth of a child, adoption, initial placement of a foster child in the employee's home, or to care for a family member who has a serious health condition.
 - A. Leave of absence without pay shall not exceed sixty calendar days, extended or renewable to a maximum of six months for probation. For employees having completed their probationary period, a leave of absence without pay shall not exceed one year.
 - B. Any such leave which extends beyond thirty calendar days shall be reported to the Director of Personnel Services and shall interrupt the accrual of length of service/seniority.
 - C. Upon return to work at the expiration or termination of an authorized leave, the employee shall be returned to a position in the same class as the position which the employee held at the time the leave was granted, or in another class in the same salary range for which the employee meets the qualifications.
 - D. Employee shall request leave without pay on the form provided by the employer.

10. **TRANSFER OF LEAVE CREDITS.** An employee who transfers from one agency or department of the state to another shall have all accrued vacation and sick leave credits transferred with the employee.

A. If the employee has compensatory time credits at the time of the transfer, the employee shall be paid at the current hourly rate of pay for all such accumulation by the agency from which the transfer is made.

B. The provisions of this section also apply to an employee who separates from one agency and is appointed to another agency or department on the following work day.

ARTICLE 10

HOLIDAYS

1. Employees in the appropriate unit shall receive compensation for the following legal holidays:

- New Years Day
- Martin Luther King, Jr. Day
- Memorial Day
- Independence Day
- Labor Day
- Veteran's Day
- Thanksgiving Holiday
- Christmas

A. Other days as may be designated annually by the Governor as holidays for the State service shall be considered holidays for employees in the appropriate unit.

B. Holidays will be administered in accordance with K.A.R. 1-9-2.

ARTICLE 11

SAFETY

1. While employees recognize that their jobs entail certain occupational hazards, the employer is responsible for creating a work environment as free from risk as is reasonably possible. The employer shall disseminate information on safety and health activities and shall encourage suggestions from individual employees on means of improving the safe operation of the department.

2. Firefighting equipment, including protective clothing, and apparatus will be properly maintained and kept in good repair. When deficiencies are detected in any equipment or apparatus, a report will be made to the Assistant chief and the defective equipment will be removed from service until repaired or replaced, as appropriate.

3. Employer shall consider all recommendations of IAFF relative to basic policy on safety and health. An employee who believes that he or she is being required to work under conditions which are unsafe or unhealthy beyond the normal circumstances inherent to the operation, will report such conditions to the appropriate supervisor.
4. IAFF chapter officers will cooperate in efforts to promote safety and health, and will encourage employees to work safely, and report any observed unsafe or unhealthy conditions to the employee's supervisor. Each supervisor shall take prompt and appropriate action to correct any unsafe or unhealthy condition or action which has been observed.
5. Employees shall immediately report job-connected injuries or illnesses to their supervisor.
6. Employer shall provide written notice to IAFF chapter president concerning any safety council meetings at least 3 tours of duty prior to meeting date. The IAFF chapter president or designated representative is invited to attend and participate in any such meeting.
7. An in-house safety panel will be permitted to informally investigate accidents involving IAFF chapter unit personnel. This panel will consist of 2 members of the IAFF unit appointed by the IAFF executive committee and management may be represented on this panel by 2 members appointed by the fire chief. A report describing the means by which such events can be avoided in the future shall be submitted to the fire chief and the IAFF chapter safety representative.

ARTICLE 12

FITNESS FOR DUTY

1. **PHYSICIAN.** A qualified fire department physician as outlined in NFPA 1582, or its current replacement as adopted by the Department of Defense, the Air Force and the National Guard Bureau, shall be selected and paid for by the employer to determine whether the employee can meet the medical standards of the National Guard Bureau as they apply to this and the other sections of this article. The Fire Department physician shall determine whether the employee can perform the essential functions of the position.
2. **PRE-EMPLOYMENT.** Persons selected for firefighting positions will be given a conditional offer of employment pending the results of a pre-employment physical paid for by the employer. Failure to fully meet all the medical standards will result in the conditional offer of employment being rescinded.
3. **ANNUAL PHYSICALS.** Employees will be required to pass an annual medical physical paid for by the employer.
 - A. A current fire fighter shall not be certified as meeting the medical requirements if the fire department physician determines that the fire fighter has any Category A medical condition specified in Chapter 3 of this standard.
 - B. A current fire fighter shall not be certified as meeting the medical requirements if the fire department physician determines that the fire fighter has a Category B condition specified in

Chapter 3 of this standard that is of sufficient severity to prevent the fire fighter from performing, with or without reasonable accommodation, the essential functions of a fire fighter without posing a significant risk to the safety and health of the fire fighter or others.

1. Depending on the medical prognosis for meeting a failed B condition(s), staffing and funding, an employee may be given a reasonable period of time "grace period" in which to be re-assessed for medical compliance. The length of the "grace period" will depend on the diagnosis and the period of time it takes the average person to correct the diagnosis; it will also depend if the condition is a debilitating one in which an individual is not likely to recover sufficiently to fully meet the B condition(s) to function as a fire fighter.
 - a) The maximum length of time a "grace period" may be authorized is six months. If the employee has shown marked improvement and likely will meet the standard within a short period of time (1-2 weeks) as determined by the fire department physician, the "grace period" may be extended.
 - b) Consistent with the effective fulfillment of the department's mission, and requiring the approval of the employer, an employee may apply for leave without pay, which may not exceed one year for employees who have completed six months of service.
2. During the "grace period" an employee will be placed on light duty, if feasible.
3. An employee approved for a grace period will be re-examined near the end of the grace period, or earlier at the employee's request if the employee believes he or she has reached maximum improvement. Upon the employee's request, the employer may authorize a re-examination to determine the employee's progress if the employer believes it would be a useful and prudent expenditure of funds.
4. An employee may also be re-examined periodically during the "grace period" at the employer's request if the employer believes the employee has reached maximum improvement, is not showing any noticeable improvement or is not complying with the physician's recommended fitness or rehabilitation program. The employer will not capriciously schedule an employee to be re-examined.
5. If during a re-examination, there appears to be no noticeable improvement or compliance by the employee, and the fire department physician determines that the employee cannot realistically meet the medical standard(s) or perform the essential functions of the position within the original "grace period" set, the employer may proceed with a separation from employment.
6. If the employee requests an earlier re-examination and the standard(s) is still not met, depending on the progress of the compliance, the employee may continue in the original grace period or may be separated from the employment as a fire fighter.

7. If, after final re-examination, the employee does not fully meet a B condition, the fire department physician will determine on a case-by-case basis if the employee's medical condition would prevent that fire fighter from performing fire-fighting operations.
- C. If the employee does not agree with either the original physical or a reexamination which may lead to separation, he or she may, within one (1) week of receipt of the determination, inform the employer of the date of an appointment to obtain, at the employee's cost, written additional medical documentation and/or a physician's statement to the employer for consideration.
1. If the two medical opinions differ, management will select another qualified physician, preferably a Board Certified Occupational Health physician knowledgeable in fire-fighter medical standards, to perform a third and final evaluation, the cost which will be bore equally by the employee and management.
 2. If and when the National Guard Bureau or Department of Defense issue any new medical requirements for fire fighters, those new standards or conditions will be met a specified by the implementing entity.
4. **SPECIAL FITNESS FOR DUTY ASSESSMENTS.** The employer may call for a special fitness for duty assessment when the employer has reason to believe the employee is not able to safely perform the essential functions of their position. This assessment shall consist of a demonstration of the skills required or other evaluations or consultations. This information will be used by the fire department physician, in consultation with the employer, to determine whether the employee can perform the essential functions of the position.
5. **OCCUPATIONAL ASSESSMENT.** Once each year all unit members will be occupationally assessed following the attached program.
- A. Any member that has met their time goal will be considered “standard”. Any member that does not meet their goal will be considered below standard and be required to meet with a member of management to develop an action plan which could include a referral to the employee HealthQuest program (<https://healthquest.phsstofks.wellness.us.healtheintent.com/onboarding> 1-888-275-1205, Option 3) and/or to the Employee Assistance Program (www.guidanceresources.com Web ID: SOKEAP 1-888-275-1205, Option 1) to create a self-improvement program.
- B. The results of this assessment will constitute no less than 20% of the total annual evaluation.

STATE OF KANSAS FIREFIGHTER FITNESS AND WELLNESS PROGRAM

The Fire Department Fitness/Wellness Program will have three essential components.

WELLNESS: The Wellness component will provide employee assistance and encourage firefighters to adopt permanent lifestyle changes. Employees will use the State of Kansas Health Quest program when needed and both management and the organization will encourage this program's services.

OCCUPATIONAL ASSESSMENT: The occupational Assessment will consist of the tasks as outlined in the following "Firefighter Occupational Assessment Circuit".

FITNESS TRAINING: Fitness training will be accomplished to improve or maintain firefighter cardiovascular conditioning, endurance and muscular strength and is considered necessary to complete the Occupational Assessment.

If Fire Protection personnel are unable to meet the designated time for their age group, they will be provided at least one (1) hour during each duty day to exercise in accordance with Article 7, Section 3 of this agreement and will be required to retest within 90 days.

If Fire Protection personnel are still unable to meet the designated time for their age group, they will be provided at least one (1) hour during each duty day to exercise in accordance with Article 7, Section 3 of this agreement and will be required to retest again within 90 days.

If, after the third (3rd) attempt, Fire Protection personnel are unable to meet the designated time for their age group, the Fire Chief shall submit a written report to the Adjutant General's Department State Human Resources Director detailing the circumstances and making recommendation. Upon receipt of such report the failing personnel may be subject to disciplinary action up to and including termination.

PROGRAM IMPLEMENTATION: Prior to the Occupational Assessment those persons whose annual physicals (NFPA 1582) are not current will be required to complete the physical.

The Occupational Assessment will be administered three times each year. When possible, this assessment will be conducted at least 2 weeks prior to the scheduled feedback/evaluation. The goal is to have each person complete the assessment in the allotted time. If an individual is unable to meet the designated time for their age group during the Occupational Assessment, he or she will be required to meet with a member of management to mutually develop an action plan which could include a referral to the employee HealthQuest program (<https://healthquest.phsstofks.wellness.us.healthintent.com/onboarding> 1-888-275-1205, Option 3) and/or to the Employee Assistance Program (www.guidanceresources.com Web ID: SOKEAP 1-888-275-1205, Option 1) to create a self-improvement program.

FIREFIGHTER OCCUPATIONAL ASSESSMENT CIRCUIT

The circuit consists of 10 simulated fire-fighting tasks that must be completed in a continuous and consecutive manner. Full PPE/bunker gear to include breathing apparatus will be worn during the assessment. Walking between tasks permits the fire fighter to recover his or her breathing pattern and allows them to cool down.

Below are the target times based on age and will be determining factor when evaluating an individual.

Age Groups	Time Requirement
A. Between 18 and 35 years old	(8 min or less)

- | | | |
|----|-----------------------------|------------------|
| B. | Between 36 and 45 years old | (9 min or less) |
| C. | Between 46 and 65 years old | (10 min or less) |

The order of the following tasks may be modified. The tasks that make up the occupational fitness assessment circuit are as follows:

Task #1: One Arm Hose Carry. The firefighter carries one 50-foot section of rolled 3-inch hose in one hand a distance of 50 feet, touches the line with at least one foot and returns the same distance, carrying the hose in the other hand. The hose is then safely placed on the start line when at least one foot touches the line. This task simulates the requirement of carrying a rolled hose from a fire truck to a fire hydrant or to the fire scene. Equipment must be carried from the truck to the fire scene because fire trucks must be parked away from the actual fire for safety reasons. The candidate then walks 50 feet to Task #2.

Task #2: Ladder Raise. The firefighter picks up a 14-foot ladder from the floor, carries it a distance of 50 feet and raises it against a wall at a predetermined position. This task simulates the requirement of removing a ladder from a truck, carrying it to the fire scene, and raising it against a wall. After completing this task, the candidate will complete Task #3.

Task #3: Ladder Lower. The firefighter is required to lower the 14-foot ladder using any technique. He/she is then required to carry the ladder a distance of 50 feet, touch the line with at least one foot, and then safely lower the ladder. This task simulates moving a ladder from one location at the fire scene to another or carrying a ladder from the fire scene back to the truck. The candidate then walks 50 feet to Task #4.

Task #4: Charged hose Drag. The firefighter picks up the nozzle end of a 100-foot section of 1 ¾ inch charged hose line and drags the hose a distance of 100 feet. The firefighter then places the nozzle end of the charged hose line at the 100-foot mark when at least one foot touches the line. At fire scenes, firefighters must drag sections of charged hose from the firetruck to the fire scene. After completing this task, the candidate walks 50 feet to Task #5.

Task #5: First Ladder Climb. This task requires the firefighter to climb 10 rungs up and 10 rungs down on a 24–35-foot extension ladder. This process is repeated 3 times for a total of 30 rungs up and 30 rungs down. The firefighter must place both feet on the 10th rung prior to descending. The firefighter must place both feet on the ground prior to ascending. The fire department assessment monitor must call out the number of rungs climbed to assist the firefighter performing this task (i.e., one, two, three, etc.). It is important to only call out the rungs completed so as not to pace the firefighter by voice command. The firefighter being evaluated must determine their own pace. This task represents the requirement to climb and descend three flights of stairs. A ladder is used to perform this task since our fire stations do not have three flights of stairs. After completing this task, the candidate walks 100 feet to Task #6.

Task #6: High Volume Hose Pull. The firefighter is required to pull a 100 ft. section of 3-inch hose, using a rope, a total distance of 100 feet. The firefighter must use a hand-over-hand, one or two hand pull technique. This task commences with the firefighter pulling the hose from the “50-foot mark” to the “start” line. Once the hose reaches the “start” line, he/she walks 50 feet to the “50-foot mark,” picks up the rope and pulls the hose back towards his-self or her-self until the hose reaches the “50-foot mark.” This task must be completed on a smooth concrete slab floor which is common in most apparatus stalls.

This task simulates the requirement to pull equipment onto a roof or into a burning building utilizing a hand-over-hand technique. For safety reasons, this task is simulated on the floor versus having a firefighter actually pull equipment onto a roof. After completing this task, the candidate walks 50 feet to Task #7.

Task #7: Forcible Entry. The firefighter is required to drive to Kaiser sled 12 inches this correlates scientifically with the forces required to knock down structures (doors/walls) in order to obtain access. After completing this task, the candidate walks 50 feet to Task #8

Task#8: Victim Drag. The firefighter is required to drag a “Rescue Randy” rescue mannequin weighing 145 pounds a total distance of 100 feet. The mannequin cannot be dragged by its clothing. Dragging the mannequin is done as for human victims by holding at the upper torso. Using a belt at the upper torso (under the arms) is required. The mannequin is dragged from the 50-foot line to the start line. Once the firefighter touches the start line with at least one foot, he/she must turn around and drag the mannequin back to the 50-foot line. The mannequin is placed on the 50-foot line when the firefighter places at least one foot on the line. This task simulates the evacuation of a casualty from a burning structure. After completing this task, the candidate walks 50 feet to Task #9.

Task #9: Second Ladder climb. The firefighter is required to climb 10 rungs up and 10 rungs down twice. This task is identical to Task #5 except the firefighter only climbs up and down twice instead of three times. The firefighter may stop and rest during the task, however for safety reasons, the firefighter should be encouraged to rest prior to his/her second ascent and should be discouraged from resting on the 10th rung. Two feet must be placed on the 10th rung and, on the ground, as described in Task #5. After completing the task, the candidate walks 100 feet to Task #10.

Task#10: Spreader Tool Carry. The firefighter is required to lift the spreader tool from the “start line” and carry it to the 50-foot line, and then turn around and carry the spreader tool back to the start line and place the spreader tool back to the ground. This task represents carrying a tool to the scene.

ARTICLE 13

TRAINING

1. **NEEDS ASSESSMENT.** The employers annual training needs assessment shall solicit employee opinions on necessary and preferred training to meet the requirements of the position and to keep abreast of technological advances in Fire Science and emergency response.
 - A. IAFF may annually provide the employer with a written list of suggestions to help to update and improve the methods and requirements of training state firefighters. The employer will then reply to the unit as to the disposition of these suggestions.
 - B. Employees may request or volunteer to attend a training course to enhance their skills. Not all requests/job relation training may be approved for funding or work time. Factors that can affect approval training are costs, lack of funding, staffing, workload, previous training attended and employment status. Disciplinary action involving a written reprimand or more progressive discipline within a six-month period prior to the start of the training will also be a

factor affecting approval. An employee's request to attend a training course may not be granted when a disciplinary investigation is pending for that employee.

2. **OUTSIDE TRAINING OPPORTUNITIES.** Employees may be afforded the opportunity to attend firefighting schools and related courses sponsored by state or federal agencies or other sources.
 - A. Employees shall apply to their Assistant Fire Chief for authorization to attend appropriate training opportunities covering matters which are not part of the station training agenda. Opportunities shall be rotated among employees in such a way as to afford every interested employee this type of training. Such training opportunities must be requested in writing at least 14 calendar days prior to the first day of training. Except in circumstances when the indication of a training opportunity is provided with short notice, out-of-state training must be requested sufficiently in advance to meet the Comptroller's two-week submission timeline for processing.
 - B. The employer will continue its effort to secure funding for outside training opportunities. Where funding is unavailable employees may still be approved for leave with pay to attend such training at the employee's expense.
 - C. When desired courses are held outside the employee's regular shift, it is permissible for the employer to reimburse for the course even though the employee attends on their own time. The decision to reimburse the employee will be determined prior to the employee applying to the course.
 - D. The employer will only pay for a training course one time with the exception of Pre-retirement Planning which may be taken twice. One time in early employment and once again close to retirement.
 - E. Approved training will be in pay status. Reimbursement for fees, travel, lodging and meals shall be in accordance with state Accounts and Reports regulations. For the purpose of this provision, required training will include First Responder and EMT basic.
 - F. When approved employer sponsored training is conducted away from the work site the employee will be compensated for this training time as prescribed by the Fair Labor Standards Act (FLSA) at 29CFR-553.226 including hours spent to prepare for classes. Travel in conjunction with this training shall be compensated as prescribed in qualifying sections of the FLSA at 29CFR-785.26-785.41, et seq. All hours paid for this training including appropriate travel shall count towards work in the 106-hour work period.
 - G. The study time will be mutually agreed to by the employee and their Assistant Chief. The number of class preparation hours will be based upon employees' past experiences and/or recommendation by the instructor.
 - H. If an employee does not satisfactorily complete training (or provide the documentation) for which the agency has incurred costs, the employee may be responsible for reimbursing the agency for those costs (other than wages) associated with the training, i.e. registration, travel,

lodging, per diem. This reimbursement will be only if the employee failed to adequately participate in the course and after the employee has been allowed to grieve the penalty.

3. **TUITION REIMBURSEMENT.** Any employee may apply to their immediate supervisor for tuition reimbursement for courses of study, which contribute to the employee's ability to perform the assigned work function or are related to the employee's position. The employee's application must contain the specific reason the course is being requested.
 - A. The employees should apply for tuition reimbursement at least 30 calendar days or as soon as possible, prior to the beginning of the course or seminar. Subject to the availability of funds, training priorities and minimum staffing levels, approval may be completed within two weeks and a voucher to the presenting institution or agent may be issued to cover the full amount of tuition and other educational expenses incurred. Reimbursement shall not cover the cost of books but, in the case of some seminars or other courses, may include any special equipment that may be required.
 - B. Upon completion of the program for which advance reimbursement was received, the employee shall submit to their immediate supervisor within 30 calendar days documentation in the form of a grade card, certificate of completion, transcript or other proof that the course or seminar was satisfactorily complete. Failure to produce this documentation of completion will be addressed in the same manner found in section 2, H.
 - C. Training priorities for this article are courses of study which contribute to the employee's ability to perform the assigned work function or are related to the employee's position in that order.
 - D. Continued work agreements may be required for training involving considerable expenditures of time and funds unless such training is mandated by the employer.
4. **TRAINING EXERCISES.** In order to fulfill unit mission requirements and to maintain a fully trained fire protection force, the employer will conduct regularly scheduled and unannounced structural, aircraft, and live fire drills as well as AMC alerts and other Air Force/Air National Guard initiated exercises.
 - A. Other than Air Force/Air National Guard initiated exercises, all no notice exercises will be approved by the Fire Chief.
 - B. In meeting the unit's requirement for live fire exercises, if the employees are required to travel, every attempt will be made to lodge the employees in single occupancy accommodations.
 - C. During periods of annual training for members of the Air National Guard, the employer shall make reasonable efforts to replace military members away on training with a sufficient number of members on "home station training" to help prevent civilian members from being required to work on their regularly scheduled days off.
 - D. During military weekend training, the employer may grant vacation leave to civilian employees which is consistent with minimum manning and training requirements.

ARTICLE 14

GRIEVANCE PROCEDURE

1. A grievance is defined as a dispute or claim that the employer has violated, misinterpreted or misapplied the provisions of this agreement. The employer's agency wide grievance procedure shall be used by an employee, IAFF, or group of employees when dissatisfaction occurs over any other condition of work or traditional work practice not covered by this agreement.
2. The employer and IAFF recognize the importance of settling disagreements and disputes promptly, fairly, and in an orderly manner. To accomplish this, all efforts will be made to settle grievances expeditiously at the lowest level of supervision.
3. A grievance may be filed by an employee or group of employees similarly affected or by an IAFF on its own behalf or on behalf of an employee and group of employees.
4. At all meetings held under this article, the grievant may be represented by a representative of IAFF or any other person of the employee's choosing, provided such person is not a representative of any other employee organization.
5. If the grievant is not represented by IAFF, IAFF, with the permission of the grievant, shall be afforded the opportunity to be present during all grievance discussions except intra-management meetings. Resolution of grievances in which IAFF is not the representative of the grievant will only impact that employee's situation and will not set precedent for future grievance resolutions.
6. Meetings held under this procedure shall be scheduled at mutually agreeable times and places during scheduled work shifts. Reasonable release time will be provided to the grievant under this procedure.
7. In order to encourage the harmonious disposition of grievances neither the employer nor IAFF will discuss the specifics of a grievance with the news media or persons not directly affected.
8. A grievance not appealed to a higher level of authority within the time limits provided under this procedure shall be considered resolved by the last decision rendered. If the employer fails to respond within the required time limits, the grievant shall proceed to the next step of this procedure. All time limits may be extended or waived by mutual agreement, followed up by a written confirmation of the mutual agreement.
9. A "day" for the purposes of this procedure shall be defined as any calendar day of the year except legal or observed holidays. Further, the day will be deemed to end at 4:00 p.m. (1600) for the purpose of filing any appeal or written decision. When a deadline for filing a response or appeal falls on a Saturday, Sunday, or holiday, time limits shall automatically extend to 4:00 p.m. on the next scheduled work day.
10. No material connected with the filing, investigation or resolution of a grievance shall be included in the official personnel file of any employee. Grievance records and communications shall be maintained separately from other employee files and secured in a restricted access file container.

11. There shall be no reprisal, admonition, reprimand, or other adverse action taken against any persons for their role in the grievance procedure as grievant, respondent, or witness.
12. A copy of the original grievance, management responses and any employee appeal is to be submitted to the agency's State Human Resources Director by the individual preparing that step of the grievance.
